## Who We Are

**griingo** is a chauffeured car service with a difference ...

Based in London, we offer a 'green' executive fleet of saloon, MPV and VIP cars that are run on **Biodiesel** or use **Hybrid** technology.

**griingo** is the only company that offers both **biodiesel** and **hybrid** technology making us the greenest transport service operating in London.

## Our Service

All our chauffeurs are professional, experienced, security checked, and trained to our high standard of service.

All our vehicles are recent models with leather interior and have satellite navigation installed with automatic text-on-arrival.

Our vehicles offer complimentary mineral water and a selection of magazines and newspapers.

## Why Choose Us?

At **griingo** we understand the importance of trusting us with your clients and setting a good example to your employees.

Using us shows the world that you are actively doing your bit to be 'green' and reduce your carbon footprint.

## Biodiesel

**Biodiesel** is a government-recognised alternative to fossil fuel. It is made from 100% recycled vegetable oil from the catering trade and reduces CO2 emissions by up to 80%. It is produced locally in Britain taking the need for foreign oil out of the equation.

**Biodiesel** emits no 'new CO<sub>2</sub>' into the atmosphere, making it a virtually carbon-neutral fuel and replaces the smell of burning petrol with the sweet smell of popcorn!

**This type of car is better for longer distance journeys.**

## Hybrid

We also use the Toyota Prius with hybrid technology; this is a sensible choice in London's congested streets as the car runs on battery power when driving at low speeds, reducing emissions by up to 70%.

**This type of car is better for shorter journeys.**

**griingo** is continually looking towards the future of environmental technology. As more alternative fuelled vehicles are made available to us we will be adding them to our fleet.

## Go Green

We cannot take cars off the roads but we can make them kinder to the environment.

At **griingo** we genuinely care about preserving the future and 'going green' is easy ... so **go green with griingo.**

## Make The Switch

Switching to **griingo** is quick and easy and is a step in the right direction for a greener, cleaner and sustainable future.

We offer competitive rates and a very friendly service.

So, for a green, clean and professional service, call free or email us to find out more or to set-up an account in minutes.
